SHAREPOINT INTEGRATION

Central and structured data management
in your Sales & Service Cloud.

[b4b-solutions.com](https://www.b4b-solutions.com)

THE APP FOR INTEGRATING SHAREPOINT WITH YOUR SALES & SERVICE CLOUD.

Complex data filing systems lacking a central point of access slow down business processes and often cause a significant loss of time and resources. A modern and efficient document management tool therefore becomes an increasingly important asset for any company. You are already using SharePoint and want to combine its potentials with the functions of your Sales and Service Cloud?

This B4B app provides you with a single point of access to all your data and documents which allows your team to find, process and archive files and documents quickly and effortlessly.

SHAREPOINT INTEGRATION OVERVIEW

- Efficient business processes through a single point of access to all your documents and data
- Easy creation of standard files
- Fast access to your documents via search function (in your Sales & Service Cloud)
- Access to your Sales documents for users outside your CRM

**THE APP WILL IMPROVE YOUR
INTERNAL PROCESSES AND WILL HELP
YOU TO INCREASE YOUR BUSINESS
PERFORMANCE SIGNIFICANTLY.**
